

Doctors Subacute Care is committed to the health and safety of all its residents and staff. As such, we require appropriate staff to be tested for Covid-19 on a scheduled basis. Thankfully all residents and staff are healthy.

As we gradually ease our Covid-19 restrictions, please remember that we have guidelines in place to protect the residents and staff of Doctors Subacute Care. The Covid-19 Vaccine is available to all residents and staff. Please let us know if your unvaccinated loved one would like to get vaccinated.

**Please read the attached Visitation Guidelines carefully.**

Kindly note that since it has been a while since we had indoor visits, many of you would like to visit as soon as possible. We will try to accommodate everyone as best as possible. Thank you in advance for your understanding, cooperation & patience. We request that you adhere to the established facility policies and procedures to ensure a smooth visitation program.

Feel free to visit us on the web at <https://doctorssubacutecare.com/covid19/> to learn what we have been doing to protect your loved ones during this time.

We thank all our residents and families for their understanding and diligence in helping us keep our residents safe, healthy and being a part of maintaining a Covid-19 free facility.

In an effort to ensure the health & safety of all our residents and staff, we will be request testing of each unvaccinated visitor for Covid-19 prior to each visit.

If you would like to schedule a visit with your loved one, please reach out to April to reserve a time slot:
