

FAMILY NEWSLETTER, COVID-19 UPDATES, AND STATISTICS

Dear Families and Friends,

The Department of Health has deemed our county with low community levels of Covid-19, which means masks are now optional for its employees and visitors at Doctors Subacute. In the event there is an outbreak or an increase in COVID-19 community levels, we will reinstitute our mandatory masking policy. Please know we will inform you and post signage in the event of any changes in the community levels.

Doctors Subacute Care is committed to the health and safety of all its residents and staff. We are monitoring each resident and staff member to detect any potential cases early. We are also following all CDC and NJDOH guidelines to protect our residents and staff.

Doctors Subacute Care reserves the right to make sure visits are done following Covid-19 and infection control protocols. **Please refrain from visiting if you have tested positive or have been exposed to Covid-19, Influenza, and/or Norovirus in the past 14 days of your visit.** We greatly encourage all residents and staff to be fully vaccinated against Covid-19. Being vaccinated will help prevent additional transmission of the disease as well as protect against serious side effects.

We have a new Resident Phone Line!
Please dial: (973) 968-4350 to reach your loved one.

To protect our staff and your loved ones, we strongly encourage visitors to provide proof of vaccination and/ or get tested upon entry to the facility.
